

Senior technician in Cutaneous Biology

Lucas Meyer Cosmetics is the business unit of IFF which develops, manufactures, and markets innovative ingredients (active ingredients, functional ingredients and delivery systems) for the cosmetics and personal care industry.

To extend our R&D Team, we are looking for a dynamic senior technician with cutaneous biology expertise . The successful candidate will be in charge of the development of new *in vitro* and *ex vivo* study models as well as biological analyses (colorimetry, microscopy, RT-qPCR...) under the responsibility of a R&D project manager..
